It first, to find a reliable place to purchase it, a place you've got faith in, a place where you can get satisfaction or get your money back if you want it—that place is our store. Now, as to the garment itself; you don't want a back number. You don't want an ordinary commonplace dry goods or bargain store overcoat that snazles at bygone times. [On the contrary, you want a coat that is up-to-date, a coat that is made of new, substantial and fashionable fabrics—the custom-made kind—cut to special order and made in this season's styles for this season's wear—fine custom tailor work at one-half custom tailor prices—and that's

The number-eight for North River died a short time after his election and the House Government has failed to pass a bill for a new election, though it is now 510 days since the vacancy was created. A most singular violation of the solemn situation. Part of the result is the cause of the delay.

Montreal Centre is unrepresented in Parliament. The number-eight was unseated and disqualified for personal bribery, and the Centre constituency did not order a new election, though the act has been passed for over a year. Such is the British respect for the rights of the people.

Eight thousand men have struck in St. Louis, destined to work with union men.

Eight plain factories have left Chicago because of the labor troubles. A piano factory employs a high class of labor, and the city that loves them wholesale has good reason to ponder over the fact.

In a several riot at Bilbao, Spain, the soldiers had to charge the mob and many were killed and many injured.

\$250,000 of flour has been purchased in Winnipeg by a Japanese firm for shipment to Japan. This country is opening up a new market for our wheat, says.

Mr. Whitney says there was gross corruption in the South Sea. British action, taken at unnecessary expense, did not stop the House of Commons from passing a bill to suppress the Chinese workmen and is not satisfied in the end.

THE GREAT

"GILFUR ELECTRIC BELT"

"The Best I ever saw," is the remark made by all those who visited Clark's Drug Store to see it. And no wonder they pay the great Belt its compliments, as no fake and the strongest Belt in the world, which is only six inches long, and can be carried in the pocket while one is wearing the appliance. Any quantity of current flows from this mild or strong, as the person can vary. All electric Belts are charged with acid or vinegar and water, which will not furnish enough Electricity to do any good. Why go away for one of the great appliances and take chances on what you are getting, when you can get one at home? See and try it before you buy.

Honest Principles

ONE PRICE—the lowest possible—has been one of the main points in bringing our business from what it was about 90 years ago to what it is now.

The public is quick to appreciate honesty. One price is the only fair and honest way to sell goods.

Where such a principle is not enforced the goods are marked at a high price to allow the reduction.

If you buy in such a store and do not "beat down" you pay much more than the worth of whatever you buy it.

In our clothing department every advantage is available by us in buying—and there are many—has been brought forward to make possible BEST VALUES. Each article is marked in plain figures for cash, form which price we will not deviate.

There's a satisfaction in the assurance that what YOU pay all day and whether you make the purchase, or one of your youngest children, our price is just the same.

That such principles are meeting the public approval is evinced by our rapidly increasing clothing trade.

Every new and stylish garment, both overcoat and suit, you will find here at a price which for such superior quality and value you will acknowledge at least marks.

Such a guarantee carries a guarantee of perfect satisfaction or money refunded.

What Some Men Do

About one in every ten men who wear Quick & Robertson's Clothes will admit that they bought them ready for service—the other nine because they know the clothes will back them up in it, claim that they had a tailor build them to measure

This going to a high-price tailor for clothes is but a habit—it was necessary some years ago, but not since the opening of this store, which introduced the Quick & Robertson quality. The tailor's fabrics, the most exclusive ones, are those we use—we follow the tailor's styles, and now in finish many of his best garments—except what more could a man ask for, and save half what a tailor charges?

LUXURIOUS OVERCOATS

Complete assortment of the models of the most stylish Overcoats for Men—coats that will please as thoroughly as those you'd pay tailors a great deal more money for like quality—\$5 up to \$16.50.

Smart Suits.

Stunners, all of them—those at \$6, \$8, \$10, \$12 up to \$15 cannot be equalled in town except, of course by the man-to-measure garments that cost double our prices.

But don't take our word for it, come and see for yourself how much better quality is here, though it is priced the same as ordinary suits are elsewhere.

A Horrible Tale From Deseronto.

WHICH IS IT TO BE HOPED MAY TURN OUT TO BE UNTRUE.

A horrible tale comes from the neighborhood of Deseronto, which it is to be hoped, for the sake of humanity, may turn out to be untrue.

The story was freely related in this city last night and today, and is to the following effect: A young married couple, the male member of which formerly lived in this city, have for some time not been living happily together. Some time ago the husband was laid up, but afterwards went back to live with his again, plainly, so the story goes, relations have been strained between the man and his wife, and a couple of nights ago the husband was laid up, and help. It is alleged that the wife, however, in her bedchamber, and poured a quantity of strong acid over her husband's body, with terrible results. The story was said to be horrible in the extreme, the man's body being so grievously burned before he could be taken to the hospital. It was stated that the man was so desperately injured that his life was despaired of, and that morning a report stated that he was dead.

SANDFORD BOY'S CLOTHING.

The cloth hall up to the front of the store was full of clothing in the morning. The boys' clothing was in the foreground, and the girls' clothing was in the background. The boys' clothing was in the foreground, and the girls' clothing was in the background.

A YANKEE VIEW.

WHAT A NEW YORK PAPER HAS TO SAY OF THE ALASKA BOUNDARY AWARD.

(New York Independent.)

THEY are disappointed, they are angry, they are sad, they are full of a case. There is no proof that we have enough of having our own after the discovery of gold in the Klondike region, when it became known that the only feasible or really available source of gold in Dawson was through the passage at the mouth of the Yukon.

In 1886 that the boundary claim was laid before the Anglo-American arbitration tribunal, which was composed of the United States, Great Britain, and the Netherlands.

What Some Men Do

About one in every ten men who wear Quick & Robertson's Clothes will admit that they bought them ready for service—the other nine because they know the clothes will back them up in it, claim that they had a tailor build them to measure

This going to a high-price tailor for clothes is not a habit—it was necessary some years ago, but not since the opening of this store, which introduced the Quick & Robertson quality. The tailor's fabrics, the most exclusive ones are those we use—we follow the tailor's styles, and excel in finish many of his best garments—now what more could a man ask for, and save half what a tailor charges?

LUXURIOUS OVERCOATS

Complete assortment of the models of the most stylish Overcoats for Men—coats that will please as thoroughly as those you'd pay tailor a great deal more money for like quality—\$35 up to \$150.00.

Smart Suits.

Stunners, all of them—those at \$6, \$8, \$10, \$12 up to \$15 cannot be equalled in town except of course by the male-to-measure garments that cost double our price.

But don't take our word for it, come and see for yourself how much better quality is here, though it is priced the same as ordinary suits are elsewhere.

MUSIC AND THE ORPHEUM.

"ROBERT BURNS." The friends of "Robert Burns," the immortal Scotch poet, are almost legion, and they, in common with other theatre-goers, will welcome the coming of the play of "Robert Burns" at the Orpheum Opera House on Tuesday next.

The drama was written by Charles MacLennan, and is said to have been suggested by MacLennan to the Orpheum Opera House on Tuesday next.

Look at The Quality

Thoughtless folks look at the price, the cautious ones look at quality. They reason rightly—that the cheapest is the costliest. Better buy once at a fair price, than twice at prices that can't possibly hold any value.

Must Be All Wool.

All wool, honest sewing, honest linings, cost money, but they wear. We never have had and never shall have anything but all wool to show you. The best that can be put into clothing is none too good for our customers. That this reliability costs less here than elsewhere is the truth.

Trust To Luck.

If any other store sells clothing lower than we do, it is because they ignore quality—risk satisfaction—trust to luck. There's no look here, solid, substantial, fact-selling.

Go into this subject this season before you buy, and let the best win, not the cheapest.

God Save the King!

Edward the Queen's eldest son is now old today.

And is today for many years yet if the Gods don't weary of him. He is much over the Alaska Boundary business.

This weather must have been sent to the successful benefit of the apple man. They say there are hundreds of barrels of them still unexpired (the apples, not the men).

A city minister preached on "The young man in the church" last night. It's a pity his sermon couldn't have been heard by several young men who apparently never go to church.

A new candidate for Aldermen has been unearthed. He is in favor of all sorts of municipal improvement and a lower rate of taxes than the man we want.

Rumor says that a present member of the Council has elegant satisfaction of municipal honors, and will make way for somebody else next year.

And by the same token, if some people are to be believed, a select few of the Council will do the same thing "silently or savantly."

But you always hear talk of that kind, and must take it "cum grano salinis" as our friend would say.

Cautious of every degree will heartily second the efforts of the Lord's day Alliance, both from a spiritual and physical standpoint. It is the duty of every man to "remember the Lord's Day to keep it holy." Good luck to the L.B.A.

It will take about three years to build the Chief when he leaves office, but that year which was seen at the doorway.

THE FEAR OF HUNGRY

Prevents Many People From Trying a Good Medicine.

Somewhat troubles are the cause of many a disease, and it is not surprising to find that people are apt to be deterred by such a feeling as this, "I am afraid to try that medicine because it is so strong, it will surely kill me."

It is a very natural feeling, and one which is often the result of a diseased condition of the system. It is a feeling which is often the result of a diseased condition of the system.

What Some Men Do

About one in every ten men who wear Quick & Robertson's Clothes will admit that they bought them ready for service—the other nine because they know the clothes will back them up in it, claim that they had a tailor build them to measure

This going to a high-price tailor for clothes is but a habit—it was necessary some years ago, but not since the opening of this store, which introduced the Quick & Robertson quality. The tailor's fabrics, the most exclusive ones, are those we use—we follow the tailor's styles, and excel in finish many of his best garments—now what more could a man ask for, and save half what a tailor charges?

LUXURIOUS OVERCOATS

Complete assortment of the models of the most stylish Overcoats for Men—coats that will please as thoroughly as they will pay tailors a great deal more money for like quality—\$35 up to \$160.

Smart Suits.

Stunners, all of them—those at \$3, \$8, \$10, \$12 up to \$15 cannot be equalled in town except, of course, by the made-to-measure garments that cost double our price.

But don't take our word for it, come and see for yourself how much better quality is here, though it is priced the same as ordinary suits are elsewhere.

NOTES OF SERVICES IN DIFFER-

ENT PLACES OF WORSHIP

St. Thomas.

The Rev. John G. B. Smith,

conducted the service at St. Thomas

yesterday. In the morning he

preached from the 11th Book of

Daniel, 12th verse.

"In the same hour some fifth

figures of the sun and moon

wrote over against the east wall

upon the plates of the wall of

the king's palace; and the king

was wakened out of his sleep, and

was astonished.

The reverend gentleman dealt

upon the goodness of Daniel, "It

was not until about five years

ago that his religiousness was

renewed, and he was then a

man of great energy and

zeal."

Look at The Quality

Thoughtless folks look at the price, the cautious ones look at quality. They reason rightly—that the cheapest is the costliest. Better buy once at a fair price, than twice at prices that can't possibly hold any value.

Must Be All Wool.

All wool, honest sewing, honest linings, cost money, but they wear. We never have had and never shall have anything but all wool to show you. The best that can be put into clothing is none too good for our customers. That this reliability costs less here than elsewhere is the truth.

Trust To Luck.

If any other store sells clothing lower than we do, it is because they ignore quality—risk satisfaction—trust to luck. There's no luck here, solid, substantial, fact-selling.

Go into this subject this season before you buy, and let the best win, not the cheapest.

TIMELY TOPICS

Some of the city school-boys did not have their flaps up yesterday, caused by the fact that the "blondie" old paper were borrowed by the Board of Education, when Lord Maitland dropped in to see us and never returned.

Nice thing, that, for The Globe to telegraph over to Mr. Maitland. It gives us something to see to have to report that several of the Belleville schools did not have their flaps up on your birthday. This may not have been caused by the Alaska Boundary decision, but it looks suspicious, and makes us very disappointed. Indeed? And then this Maitland will flatter out to the postmaster's office, and go to his royal country in robes, thinking that Belleville wants to yearn herself away from the Empire.

The best thing we can do is to send a wireless message to the King, telling him that the unfortunate affair was not premeditated, and that, if he will forgive us, we will do our best to have the King's flaps tomorrow on the park acrossed by the time his next birthday comes around.

Letters look up if you happen around the corner of Bridge and Church streets tonight. On can side you may be pleased and on the other side you may be disappointed.

ABOUT THAT COAT

You wear a coat. Why? To keep the cold out? No, to keep the warmth in. What of the body that has no warmth—the thin, poor body that lacks the healthy flesh and fat it needs?

For such we find that Scott's Emulsion provides the right kind of a coat. Why? Because Scott's Emulsion builds firm, solid flesh and supplies just enough fat to fill nature's requirements—no more. That means that warm.

We'll send you a sample from which you may copy.

STILL ANOTHER LIBERAL POLITICAL CONVENTION THE ROSS GOVERNMENT.

The Toronto organs of the Ontario Government having called upon Ross to attempt a "purification" of the party which he leads in Ontario, the Ontario organ of the Dominion Government takes up the subject and rebukes the same sentiment, and tenders some sound advice.

Does this not indicate an assumed policy on the part of Federal manipulators to rid themselves of the leader "who" weighs heavily upon them, in the personality of Ross, Stratton and their parasite supporters in Ontario, whose political crimes have caused the respectable portion of the party to reject them in their judgment, rather than from the rule of, in the language of The Free Press, "the party of the people?"

Let The Free Press speak for itself, and no doubt for the more honest portion of the party to which it belongs. It says, in connection with the position now held by the Ontario Ministry:

"The lack of interest in the political life of the Province of Ontario, and no doubt for the more honest portion of the party to which it belongs. It says, in connection with the position now held by the Ontario Ministry:
